

A heatmap illustrating the relationship between GRE Quantitative Reasoning scores (X-axis) and GRE Verbal Reasoning scores (Y-axis). The X-axis spans from 130 to 170, and the Y-axis spans from 130 to 170. The color scale indicates the strength of the correlation: red for negative correlation and white with black '+' symbols for positive correlation. A prominent diagonal band of white '+' cells runs from approximately (145, 130) to (170, 170), representing a strong positive correlation.

This table is applicable to the MSM Master of Business Administration (MSM-MBA) and the MSM Master in Management (MSM-MM)
